

BEST OF BOTH WORLDS

3150HR

This unique 24/7 intensive use chair combines the utility of a task chair with the comfort of a high back. Lean against the headrest or neck roll, or slide the headrest out of the way and lock the chair with a forward tilt for additional support while doing desk work.

— KEY — POINTS

ERGO AIR SUSPENSION SYSTEM™ - Our Ergo Air Suspension (EAS²) dissipates the occupant's weight over the entire chair surface improving blood flow and increasing oxygen levels to tissues. Improved blood flow and increased oxygen levels improves concentration and productivity and decreases fatigue. EAS² conforms to the shape of each occupant, as it almost instantly bounces back to original shape when weight is lifted. No springs eliminates the chances of squeaky or flattened springs.

REPLACEABLE COVERS - Covers can wear, but our frames are virtually indestructible. Bring back that 'brand new' look in minutes even after years of 24/7 service. Covers can be held on by hook-and-loop and can be replaced in a matter of minutes. Back rest requires a screw driver.

SAFETY CASTERS - Smooth dual wheel design with spring action not to roll away unless there is weight in the chair. Dual connection point eliminates rattle for a smooth roll.

ALL STEEL FRAME - Ten gauge steel maintains original tensile strength and rigidity over years of 24/7 heavy duty use.

ADJUSTABLE ARMRESTS - No tools required to adjust. You can choose style, width and height for customized comfort, security, and support. Swing arm style will swing out of the way from a seated position.

WARRANTY - The best warranty you'll never need. Chair is covered by a 6 year parts only warranty that includes all normal wear and tear. Steel frame is warrantied for a period of 10 years. Weight limit is 550 lbs. in a multi-shift environment.
