

3156HR Bariatric Chair

KEY POINTS

ERGO AIR SUSPENSION SYSTEM - Our Ergo Air Suspension (EAS²) dissipates the occupant's weight over the entire chair surface, improving blood flow and increasing oxygen levels to tissues. Improved blood flow and increased oxygen levels improves concentration and productivity and decreasing fatigue. EAS² conforms to the shape of each occupant, as it almost instantly bounces back to original shape when weight is lifted. No springs mean an eliminating the chances of squeaky or flattened springs.

REPLACEABLE COVERS - Covers can wear, but our frames are virtually indestructible. Bring back that 'brand new' look in minutes even after years of 24/7 service. Covers are held on by hook-and-loop and can be replaced in a matter of minutes.

SAFETY CASTERS - The smooth, dual wheel design features a spring action that prevents rolling away unless there is weight in the chair. Dual connection points eliminate rattle for a smooth roll.

ALL STEEL FRAME - Ten gauge steel maintains original tensile strength and rigidity over years of 24/7 heavy duty use.

ADJUSTABLE ARMRESTS - Tools are required to adjust. You can choose style, width and height for customized comfort, security, and support. Made from 5/16" steel, these heavy duty arms are adjustable in height and width.

WARRANTY - The chair is covered by a 6-year parts warranty, along with a lifetime warranty on the steel seat frame and the steel portion of the seven-leg base for the life of the product. It is rated to support up to 800 lb. in a multi-shift environment.

3156HR Bariatric Chair

SEAT PAN DEPTH	19.5" (ADJUSTABLE TO 21.5")
SEAT PAN WIDTH	26.5"
BACK HEIGHT - TO TOP OF CHAIR BACK	23"
BACK HEIGHT - TO TOP OF HEADREST	26.5" - 31.25"
ARM HEIGHT ADJUSTMENT RANGE	3 POSITIONS (5", 5.5", 6" TOP OF SEAT TO ARMREST)
